WWW.FIRSTBORNROGERS.COM

(407) 324-6005

EXPERIENCE:

Web Designer/Developer, SDES IT

December 2008 – Present

University of Central Florida

- Manages network of over 70 websites for different UCF departments in IIS7/7.5
- Web environment consists of sites developed in pure HTML, classic ASP, PHP, ColdFusion, .NET 3.5
- Provide support/custom solutions on daily basis for web design, development, graphic design
- Meets clients face-to-face on a weekly basis and works to turn their concepts into viable solutions
- Produces training videos in Premiere/After Effects and implements them with Flowplayer/jQuery

Multimedia Producer, Tribune Interactive

August 2007 – July 2008

Orlando Sentinel

- Worked to create various 2D graphics for *orlandosentinel.com* using Photoshop and Illustrator
- Shot, captured, and edited music videos for *enginehead.com* on a nonlinear editing system
- Shot, edited, and posted photographs for *enginehead.com*
- Set up blog accounts for *orlandosentinel.com*, edited web code, and wrote for a video game blog
- Created interactive elements in Flash for use on *orlandosentinel.com*

Web/Comm. Support, orangecountyfl.net

February 2007 – August 2007

Orange County FL

- Worked to create original graphics for various projects, including a logo for the Regional Commission on Homelessness, headers for email newsletters, and a log-in page for PeopleSoft
- Maintained the intranet and internet through Microsoft CMS 2001 and FrontPage, including the design of new pages, maintenance of others, and migration of pages from dev. to production
- Demonstrated various software packages to a committee for review (including Adobe Flash, Adobe Captivate, and Techsmith Camtasia)
- Worked one-on-one with customers to determine needs, prepared presentations, and worked on projects that were far-reaching and team-based

PHP/MySQL Consultant, suluta.com

July 2006 – January 2007

Suluta, Inc.

- Used knowledge of web programming to design solutions for *suluta.com* and *bounce.cc*
- Learned new PHP-based utilities and adapted them for use on *bounce.cc*
- Created log-in system and user interface for *bounce.cc*, using PHP and MySQL
- Designed a dynamic RSS feed creation in PHP.
